Fall 2014 Workshop Catalog
Digital Education Collaborative

From Process to Published: Class Blogging with WordPress

Have you ever wondered how to give students an authentic audience? In this workshop, we will examine the process of implementing class blogging assignments using the Longwood blogs WordPress platform. This workshop will focus on building the technical understandings and the pedagogical processes involved with blogging, including how to structure assignments and assess student work.

| Date	Time
09/10/2014	10:00 AM-11:00 AM
10/09/2014	2:00 PM-3:00 PM

Join the Maker Movement: 3D Printing and Design

Help your students bring their imaginations to life using 3D printing. This workshop will examine cases in which this technology has been used to meet educational outcomes and provide an overview of the hardware and software used in 3D printing and design. We will use any remaining time to brainstorm possible uses of this technology within general education and major courses.

Date	Time
09/22/2014	2:00 PM-3:00 PM
10/06/2014	2:00 PM-3:00 PM

Crafting Picture Perfect Content: Canvas and Visual Design

In this workshop, we will implement some techniques to create visually appealing and user friendly Canvas courses. We will craft interactive home pages and examine the user experience to determine the best ways to present information and organize content. Bring a flash drive and download a set of royalty free images for your content area from the DEC's subscription to Shutterstock. This workshop addresses Quality Matters standards 6 and 8 and is ideal for anyone preparing for or revising based on a review.

Date	Time
10/30/2014	10:00 AM-11:00 AM
11/13/2014	2:00 PM-3:00 PM
